## Professional Summary

I'm a computer science student with experience in full-scale website development. I'm Skilled in Java, Python, Javascript and its frameworks, acquired through a coding bootcamp and through personal projects. I'm eager to apply my technical expertise and problem-solving skills to a challenging role.

## Skills

- Python | Java | JavaScript E6+ | Flask | Spring | Mongoose | Express | React | NodeJs | SQL |
- MySQL | jQuery | Html/CSS | Git | Bootstrap | Jira | VsCode | Spring Suite
- Database Design | User Experience (UX) | CI/CD
- Adaptation | Communications | Agile | English, Punjabi, Hindi ~ **Proficient in all**

## Experience

---

**Associate Agent** **Redfin** *Sacramento, CA* **11/2021 - 09/2022**

- Successfully helped close multiple real estate deals within 8 months, demonstrating strong negotiation and interpersonal skills.
- Managed client relationships and navigated complex sales processes, project management and problem-solving abilities.
- Transferred skills in communication, leadership, and adaptability to diverse client needs to potential software development roles, bringing a track record of success in high-pressure, fast-paced environments.

---

**Assistant Manager** **Vector** *Sacramento, CA* **03/2020 - 09/2021**

- Helped train and manage a team of 14 associates and which led to a increase in revenue.
- Skills I learned from working as an assistant manager are incredibly transferrable to software development, where collaboration, communication, and data analysis are key to success.

## Projects

- 
- Currently working on an App that allows users to manage all of their finances in one place. [Github Link.](#)
  - Developed a personal portfolio website showcasing my skills and projects using HTML, CSS, and Python and JavaScript. [Github Link.](#)
